

CURRICULUM VITAE

Gilles MOREL

5, rue d'Enfer
60113 Baugy
France
Tél : 0033 6 65 78 82 63
Email : gilles.morel@utc.fr
Born : January 16th 1964 in Charlieu (France)

PROFESSIONAL EXPERIENCE

Current position at the University of Technology of Compiègne¹ (France)

- Since 2013: Director of the Urban System Engineering department
- Since 2008: Member of the research team AVENUES. In charge of the research topic : « Environmental vulnerability and urban planning »

Previous position at the French ministry of sustainable development

- 2002 – 2008: in charge of research projects on risk and crisis management (see international experience below) – In charge of the development and distribution of the OSIRIS platform for collectivities
- 1995 – 2002: research activity on knowledge and software engineering applied to flood management – Consultant for the ministry of Environment
- 1989 – 1995: in charge of the development of expert-systems in civil engineering (acoustics, dikes design, geotechnics)

DIPLOMA and EXAMINATIONS

- Administrator of the European Commission (2006)
- PhD in computer science of the University of Technology of Compiègne (UTC), with congratulations of the jury (2002).
- State Civil Engineer – Ecole Nationale des Travaux Publics de l'Etat (1988).

COMPETENCES and SPECIALITIES

- Management of multidisciplinary innovative projects for urban and territory issues
- Preparation and management of European and international projects (research and innovative pedagogy)
- Risk and crisis management (flood, natural risk, technological risk, multi-risk)
- Knowledge management, software engineering, decision support tools.

¹ UTC is one the three main member of the Sorbonne Universités group (French COMUE)

RESEARCH ACTIVITY

- Since 2012: management of research projects in the topics of the “port of the future”, air pollution in urban areas, and multimodal mobility in metropolis.
- 2000 – 2012: preparation, participation and management of national and European projects on risk, crisis management and climate change (French ANR, EU FP)
- Organisation of international workshops on risk management, mass evacuation

TEACHING ACTIVITY at UTC and Sorbonne Universités (SU)

- In charge of the lecture « Components of technical urban systems » (SU01)
- In charge of the development of international students projects for UTC and SU
- In charge of student projects in the field knowledge management (IA03)

INTERNATIONAL EXPERIENCE

- Since 2016 : in charge of the international curriculum project “Ingénieur 3I” (industry, innovation, intercultural) with Brazil (UTFPR) and other partners on the five continents
- Since 2011 : cooperation with Brazil (Federal University of Rio de Janeiro) in the fields of “port of the future” and “smart and sustainable cities” – Invited Professor at UFRJ
- Asia (2003–2007): project director of the ISLAND project (program EuropAid / ASIA-IT&C) for ISTERD, with Vietnam, Cambodia and Lao PDR.
- Europe (since 2000): participation in the EU projects OSIRIS (FP5 – IST), THESEUS (FP7 – environment) and AMICE (InterregIVB). Contribution in numerous project preparation for EU programs (environment, security, ICT).
- Morocco (95): animation of a seminar in artificial intelligence at the Casablanca civil engineering school.
- Germany (89-90): development of an expert-system in acoustics at the University of Karlsruhe.
- Canada (87-89): internship in acoustics at the University of Sherbrooke and in geotechnics at the Laval University (Québec).
- Communication in numerous international conferences since 1994 (see annex 1)

LANGUAGES

- French and English : spoken, written – fluent.
- Portuguese, German : basic

SOCIAL AND SPORTS ACTIVITIES

- International competitor in sportive dance (latin & standard) – ranked in World Dance Council (WDC) over 40 (between rank 20 and 30)

List of recent publications (2009 – 2016)

Articles in international reviews (ACL)
